

AutoRepair - 3337 - Disolvente Difuminados Spray 400 Ml.

Diluyente especial para difuminados. Consigue un borde difuminado invisible entre las capas de barniz.

Características Técnicas: Disolvente integrador para productos de dos componentes, se mezcla con la pintura o con el barniz. Diluyente para difuminado para barnices y esmaltes. Adecuado para disimular las áreas de exceso de aplicación / solapamiento. Administración: 3-4%.

También puede usarse para la limpieza de utensilios.
